

PROJECT:	TYPE:
LOCATION:	CAT:

### Description

The Economy 45 extrusion is a simple solution for narrow spaces and corners and includes a protective polypropylene lens for diffuse light.

### Features

- Extruded aluminum construction
- Includes polypropylene plastic lens (UV resistant polycarbonate lens sold separately)
- Use tape light, lens, and end caps to create a complete fixture (tape light and other accessories sold separately)

### Mounting

Surface mount via mounting clips, construction adhesive, or 3M® double-sided adhesive tape. When using 3M® double-sided adhesive tape, ensure mounting surface is smooth and clean and allow tape to fully cure. Right angled mounting areas require 3/4" clearance on both sides to accommodate the extrusion.

### Applications

Cabinets, display cases, window framing, and even stairs or steps
